ALPHA **BUCKET** SEALER

Linear, sealing & top lid machine
for pre made buckets.

MADE IN
ITALY

ALPHA BUCKET SEALER

Linear, sealing & top lid machine for pre made buckets.

The Alpha bucket sealer model was designed to provide the ultimate solutions for packing wide range of products in pre made buckets in small – medium scale production.
The design gives a full solution in small foot print machine.
sealing – top lid feeding – top lid pressing.
Suitable for various shapes and size containers with quick and easy change set
due to unique design.

Technical Specification

Machine Dimensions	2300x900x 2400 h mm
Capacity	10 buckets / min
Power Supply	400 V 3 phase, 50 Hz
Compressed Air	6-8 bar
Modified Atmosphere System	optional, by gas flushing

Main features

- conveyor for moving the bucket step by step
- Bucket sensor presence.
- Thermo sealing systems by cut and seal from film reel.
- Optional for gas modified atmosphere system.
- Top lid denester feeder to put lids automatically on the sealed buckets.
- Top lid pressing device..
- Exit bucket movment
- Machine's structure is made of 304 stainless steel.
- All parts contact with the products made of 316 stainless steel.
- Protection & safety transparent guards & interlocked doors.
- All electricity cabins located on the top of the machine for working in wet environment.
- The machine manufacture from stainless steel, anodized aluminum and plastic, which conform to CE, FDA and 3A standards for food-grade materials.
- PLC Control System
- Stainless steel – IP65, Electrical cabinet.
- Operator interface with Touch Screen, alarm list, setup functions and parameters modification.
